

George Kendall Barn

In Daniel 2730 So Daniel Rd west side of the highway stands this interesting old barn with the wonderful view of the mountains behind.

It was built by the owner of the property, George Kendall, with the help of his brother Lloyd, and John M. Thacker, of native red pine prob-

ably from the Thacker saw mill in the Strawberry Valley. It was built in about 1929 according to his sons.

As most of the barns of this period, this one was built for hay storage above and stalls for cows and horses on the main floor.

Mr. Kendall subsequently sold the

property to a Mr. Mecham from Wallsburg, and afterwards, it changed hands several times. The present owners are Tori and Lee Skinner, who purchased the property in 1991.

Information gathered from Roy and Don Kendall
